*"Ambitious, motivated, creative and determined"*

(213)658341876

Blida, Algeria

raoufmadani@live.fr

I've graduated with a Master's degree in Software Engineering at Saad Dahlab University. I'm also a junior web developer. I want to make my own impact in this world to make it better through my skills and hardwork. I'm ambitious without limit, punctual and too disciplined. I already realized some volunteer experiences in Europe to make my impact comes true. I admire the fact that success is no accident. It is hard work, perseverance, learning, studying, sacrifice and most of all, love of what you are doing or learning to do.

## SKILLS
